What is a Local Child Care and Development Planning Council?

In 1991, AB2141 requested that each of California's 58 counties establish a **Local Child Care and Development Planning Council (LPC)** in order to assess unmet child care needs and determine a course of action.

The State of California appointed the County Board of Supervisors (BOS) and the County Superintendent of Schools as the designated authorities to establish an LPC.

The Riverside County Child Care Consortium (RCCCC), a 501(c)3, founded in 1982, was appointed as the LPC for Riverside County in 1992.

The primary mission of the local LPC is to plan for child care and development services based on the needs of families throughout Riverside County. The LPC serves as a forum to address the needs for both subsidized and non-subsidized child care.

LPC's responsibilities include but are not limited to the following:

Conduct an assessment of child care needs in the county no less than once every 5 years.

Prepare local countywide child care plans designed to mobilize public and private resources to address identified needs.

Identify local funding priority areas by zip codes for child care services for General Child Care and Development Programs, and the State Preschool Programs for state and federal funds.

Foster local partnerships with subsidized and non-subsidized providers, human service agencies, local and state children and families commissions, county welfare departments, regional centers, local child care resource and referral programs, job training programs, employers, parent organizations, and other interested parties.

Collaborate with First 5 Riverside, Riverside County Office of Education and other entities to carry out child care staff retention initiatives.

Revised 8.31.10
